Instructions

These quick quizzes are low-stakes assessment tools to help cement your understanding of our material. They will help you remember the key facts and can serve as a study guide to help you focus on material you are less familiar with. These quizzes do not contribute to your grade and are for your own use.

- 1. Without looking at your notes or the textbook, and without consulting with your neighbour, write your answer to each question in the first column.
- 2. Discuss with your neighbour and use your notes or the textbook as needed to answer each question and write your answers to each question in the **second column**. You should complete the second column, but do not add anything to your first column.

There are four questions.

Question 2

How many problem sets get dropped for your final grade?

Question 3

Describe one example of an acceptable type of collaboration in this course and one example of an unacceptable method of working together.

Question 4

Looking at the topics in the syllabus, what are you most looking forward to in this course and why? Note that "the end of semester/course" is not an acceptable answer!
